Media reports have focused on the few instances of firms relocating and scaling back, but not those opening new offices. In fact, over the past three years, we have seen a strong increase of 24% in the total number of hedge fund managers, private equity fund managers and family offices in Hong Kong.

In 2023, net fund inflows into Hong Kong-domiciled investment funds recovered with 93% year-on-year growth. Their assets under management also increased by a mid-single digit. For our new investment fund regimes, last year was also remarkable. Compared to 2022, the number of registered open-ended fund companies more than doubled to 244, and that of limited partnership funds jumped 30% to 737. Besides, the asset management income growth in 2023
